

Wireless Headset

The Jabra PRO 920 offers all the essential features of a wireless headset in a simple design at an attractive price.

The **1542J** frees users from the intercom counterstation for maximum efficiency while serving drive-up lanes. Each base station can sync with up to four headsets, and multiple headsets can operate in close proximity – ideal for intercom systems with multiple operators, and multiple shifts. Walk and talk up to 325 feet away and enjoy enhanced ergonomics and crystal clear audio quality with extended talk time. Jabra SafeTone™ protects hearing by cutting off loud noises, ensuring safe average sound levels. The noise-canceling microphone eliminates unwanted background noise from an office environment. It's easy to set up your headset using voice commands. Intuitive call-control buttons make it easy to manage multiple lanes.

FEATURES:

- Crystal clear sound and safe sound levels
- Sync up to four headsets with each base station
- Operate multiple headsets in the same room
- Extended talk time
- Soft, Comfortable ear cushions
- Noise-cancelling microphone
- Dedicated button to answer/end calls
