In addition to other approval criteria, all customers should apply for open account terms of sale by supplying a fully executed Audio Authority Credit Application. The credit references and banking information you provide on the signed form will be reviewed by our accounting manager, company president, or CEO to establish a line of credit which will be strictly observed. You will be contacted promptly with our determination and new account information.

Terms of Sale

Open account terms of sale are **2% 15, new 30 days** for all customers with approved credit. Full payment is due and expected within 30 days from the invoice/ship date. Should any invoice for goods or services not be fully paid within 45 days, all pending orders (including service terms) will be held for shipment until the account balance is within the terms and the line of credit extended has not been exceeded. Additionally, we reserve the right to assess and collect interest charges on delinquent account balances.

Payment for the entire invoice must be received within 15 days from the invoice date for the 2% prompt pay discount to apply. Unauthorized discounts taken beyond 15 days will be re-billed to the customer.

Freight charges will be prepaid and added to each invoice for reimbursement or shipped Freight Collect via a customer specific carrier. **If third party billing is desired, then the customer is responsible for insuring the product(s).** All shipments are FOB our shipping dock in Lexington, Kentucky.

Audio Authority does not allow COD payment terms; however, we do accept advance payment for orders by credit card (Visa, MasterCard, Amex) with a signed Credit Bill Authorization Form. Prompt pay discounts do not apply to this method of payment.

Audio Authority Corp. is required to add sales tax to invoices for shipments made to destinations in Kentucky unless the customer provides appropriate Tax Exempt forms.

Lead Time, Drop Shipments, and Minimum Order Amount

We forecast demand and build inventory for stock, however customers should stock sufficient levels of inventory to meet the demand of their distribution networks since our lead-time to procure raw materials can vary unexpectedly. So, please place your orders **at least three to four weeks** in advance of your need date to be certain that your orders arrive on time. We confirm all orders received electronically each evening and will always try to expedite in urgent situations. We also accept blanket orders for future delivery and can be flexible in re-scheduling ship dates.

Audio Authority allows drop-shipments, but additional handling fees will be added. Shipping charges will be added to the order for all drop-shipments and a higher freight rate applies to shipments with a residential address. The handling fee for drop-ship orders under \$1,000 in value is \$10; the handling fee for orders with a value higher than \$1,000 is \$25.

The minimum dollar value we can accept and process is \$25.

Limited Warranty Statement

Audio Authority warrants all 1500 and 1580 intercom products to be free from defects in materials and workmanship for one year from the date of shipment and agrees to repair or replace any assembly that fails due to defective components or faulty workmanship free of charge during the warranty period. Non-working assemblies must be returned to Audio Authority freight prepaid.

This is a limited warranty and is not applicable for products that, in our opinion, have been damaged, altered, abused, misused, or improperly installed. Audio Authority makes no other warranties either expressed or implied, including limitation warranties as to merchantability or fitness for a particular purpose. Additionally, there are no allowances or credits available for service work or installation performed in the field by the end user.

Customers are strongly encouraged to contact Audio Authority Technical Support to resolve failures in the field. Please see our Service Policy and Procedures for In and Out of Warranty replacements and/or repair instructions and fees at audioauthority.com/pages/services for details.

Notices

The terms and conditions of sale, and other statements and specifications shown above supersede all previously published information and are subject to change without prior notice. Prices indicated above are applicable to current intercom products, not the upcoming 1500 Series III line.
